Learning about Hearing Loss—A Roadmap for Kentucky Families

| NAME: | CUP ID: __________________________________________ |
| DATE: | PHONE: ____________________________ |
| CHILD: | CHILD BIRTHDAY: ____________________________ |

### DIAGNOSIS OF HEARING LOSS
- Evaluation completed by an audiologist
  - Date of Diagnosis: ______/____/______
  - Place: ____________________________
- Hearing Loss Diagnosis
  - Left Ear: Mild ☐ Moderate ☐ Severe ☐ Profound ☐
  - Right Ear: Mild ☐ Moderate ☐ Severe ☐ Profound ☐

### DURING THE FIRST TWO WEEKS
- Received packet of information mailed to family from F2F parent consultants
- Discussed your child’s hearing loss with your health care provider at your child’s next well child checkup or make an appointment.
- Further testing needed:
  - Place: ____________________________
  - Date: ______/____/______
  - Time: ____________________________
- Additional Information Needed:
  __________________________________________________________
  __________________________________________________________
  __________________________________________________________
  __________________________________________________________

### WITHIN THE FIRST MONTH
- Your Healthcare Provider or Audiologist will help you coordinate referrals to recommended specialists (ENT, Genetics, Ophthalmology)
- ENT Evaluation (Medical Clearance for Hearing Aids if chosen)
  - Place: ____________________________
  - Date: ______/____/______
- Genetics Evaluation
  - Place: ____________________________
  - Date: ______/____/______
- Ophthalmology Evaluation
  - Place: ____________________________
  - Date: ______/____/______
- Hearing Aid Fitting (if chosen)
  - Place: ____________________________
  - Date: ______/____/______

### AFTER THE FIRST MONTH
- Ongoing Audiology care and hearing aid evaluations at three to six month intervals or as needed. Earmolds may be needed more frequently.
- After an EI Evaluation is completed, an Individualized Family Service Plan (IFSP) will be completed for eligible children and their families.
- Your health care provider/audiologist will help coordinate referrals to recommended specialists if not already completed.
